

6009 4/15/69
On your letter to Hal and Paul of 9/1/69, it would be worthwhile to contact Larry Haapanen through George Rennar about Oswald and the CIA. He was working on a memo on the possibility that LHO took part in the Indonesian revolt. Powers' testimony mentioned this. A copy of a letter from him is enclosed. Please return it. He also found something which indicated that LHO had knowledge of U-2's in terms of the equipment on them, or something of that sort. My mind is just too jumbled with prelim knowledge to remember. As for the Thornley testimony, I definitely sent it to you, and probably through N.O.--either Jim's office or Malt. I remember it distinctly, but don't know to whom I sent it. You needed it before I had time to do a memo on it because you would be in N.O.

I have the entire Crawford file and it contains some items of real interest--at least to me. I have just sent it to Jackie Diller. She is presently finishing up on what she knows on him.
